THE STRAWBERRY PESTIVAL.

The Strawberry Festival to be held tomorrow afternoon at the Madison Square peach crop. Garden, under the auspices of THE World, is already an assured success. Tickets have been given out by thou sands. Strawberries in abundance will be provided, and music, under the leadership of Mr. P. S. GILMORE, by whom a splendid programme has been arranged, will add its delights to the other pleasures of the feast.

To hear the music and see the joy of the children at the tables a splendid audience, representative of New York's best elements, will be gathered. And what a sight it will be! Ten thousand poor children, radiant with happiness and busy with the delicacies spread before them-a treat beyond measure to those little ones, to whom, alas! such sunshine

of life is too infrequent. To those who behold such a scene the spectite for beneficence should "grow

It is suggested, in view of this relation, that Hippolyre's character as a tyrant may have been overdrawn. NERO, according to the somewhat ancient legend, played the fiddle while Rome was burning. But this dusky "Nero of Hayti," as he has been termed, plays the flute while the fires of his own rage are consuming only themselves. The evils of marrying in a hurry are strikingly illustrated in the misfortunes of an elderly Newburg farmer, who fell in love with a maid servant and wedded her offhand. She fired his barn, killed his son and stole horses. If she is convicted he will have legal grounds for divorce, but it is not probable that he will care to marry again.

in a Chinese City. A law in China, says an exchange, compels every doctor, after dark, to hang up in front of his house as many lighted lamps as he has sent patients into the next world.

One evening a European, who was staying in Pekin on business, set out in search of a doctor for his wife, who had been suddenly taken ill. He called at the houses of a good many, but was deterred by the large number of lamps exhibited before each.

At length he came to the house of a doctor, where there were only three lamps. Our happy European dashed into the house of this excellent man, wakened him, and took him home. One evening a European, who was stay-

him, and took him home.

"I presume you are the best practi-tioner in this city," he remarked, because you have only three lanterns hung over your door, while your colleagues have dozens."
"Ah," replied the doctor. "The fact is, I only lately set up in practice, and have had but three patients." A Little Embarrassing. [From the Fliegende Blatter.]
